PROFILE

Computer Engineering student with a strong interest in Network Engineering, IT Infrastructure, Linux Systems, and Virtualization. Experienced in building home lab environments using Proxmox VE, Ubuntu Server, Docker, and networking technologies. Passionate about designing reliable systems, solving technical problems, and continuously learning modern infrastructure technologies.

EDUCATION

2025 - Present | Pibulsongkram Rajabhat University

Bachelor's Degree, Faculty of Engineering and Industrial Technology Major in Computer Engineering

TECHNICAL SKILLS

Networking

TCP/IP • VLAN • Routing & Switching • DHCP • DNS • NAT • VPN • SSH

System & Infrastructure

Linux • Ubuntu Server • Proxmox VE • Docker • Virtual Machines • Windows

Programming

C • Python • HTML • CSS • JavaScript (Basic)

Cybersecurity

Wireshark • Nmap • Burp Suite • CTF • Linux Security (Basic)

Tools

Git • GitHub • Cloudflare • Vercel

PROJECTS

Single Cycle MIPS CPU Design

- Designed and implemented a Single Cycle MIPS CPU.
- Tested instruction execution and memory operations.

Home Lab Infrastructure

- Built a virtualization environment using Proxmox VE.
- Deployed Ubuntu Server VMs with SSH, Docker, and Tailscale.
- Practiced Linux administration and infrastructure management.

Portfolio Website

- Developed and deployed a personal portfolio.
- Configured Cloudflare DNS and Vercel deployment.

ACHIEVEMENTS

- 3 nd Place — PSRU Cyber Hackathon
- Cybersecurity Competition Participant
- Business Model Competition Participant
- SolidWorks Competition Participant

LANGUAGES

Thai: Native

English: Intermediate (Technical Reading & Documentation)

SOFT SKILLS

Problem Solving • Teamwork • Analytical Thinking • Self-Learning • Communication • Time Management
